AGRICULTURE AND RURAL DEVELOPMENT

AGRICULTURE, LIVESTOCK, VETERINARY SERVICES AND COOPERATIVE DEVELOPMENT.

SECTION 1: INTRODUCTION

PART A: VISION

To attain sustainable food security and incomes for the people of Tharaka Nithi County.

PART B: MISSION

Provision of high quality, innovative and commercial agricultural services

Part C: Performance Overview and Background on the County Department

Crop Production Sub Sector Mandate

The crops production subsector is committed to promoting sustainable and competitive agriculture to enhance food security, wealth and employment creation, income generation and poverty reduction by providing efficient and effective support services to the clients and stakeholders through dissemination of information and provision of technical services. The mandate of the subsector is therefore to provide services and disseminate appropriate technologies, related innovations and information services to farmers and other clients through modern extension approaches in collaboration with development partners, research institutions and other stakeholders.

Cooperatives Sub-Sector Mandate

The department is charged with promotion and registration of new cooperative societies, regulation, and supervision and audit services. There is a fully fledged cooperative audit section within the department. Besides the above the department also carries out continuous cooperative education and training, spot checks, inspections and inquiries among other roles.

Livestock Production Sub Sector Mandate

The livestock department has the mandate to promote, regulate and facilitate livestock production for socio-economic development and industrialization. For the sub sector to contribute effectively to socio-economic development and industrialization, both output and productivity needs to be enhanced.

Veterinary Services Sub Sector Mandate

The mandate of Veterinary sub sector is to prevent and control livestock diseases, prevent zoonosis; increase production and productivity contribute to external and internal trade in livestock and livestock products in a sustainable environment and contribute to food security and wealth creation.

Key Achievements based on the planned outputs/services for the year 2022/23.

Crops and cooperative development

The department was mainly involved in provision of agricultural services to the farming communities in the County in the FY 2022/23. Provision of extension services continued as well as implementation of capital infrastructure projects. The key outcomes of the department were:

- Distributed certified seeds – 40 tons beans, 90 tons maize, 60 tons green grams, 3,000 macadamia seedlings, 17,333 avocado seedlings and 2,000 tissue culture bananas - to over 80,000 farmers across the county. This has led to the adoption of quality planting materials and increased production. Farmers are currently receiving e-fertilizer.
- Provision of extension services has been the preserve of the county. Over 90,000 farmers were reached during the year in collaboration with development partners including but not limited to KCEP-CRAL, SIVAP, FAO, ASDSP II, ELRP among others. The extension services have been through mobilization and trainings.
- Relocation of the Itugururu primary school to the already constructed classroom to pave way for the operationalization of the ATI.
- Promotion and support for the different Value chains (Green grams, Bananas, Dairy, Indigenous chicken etc) through KCSAP, ASDSP II and the Emergency Locusts Response Project. This has resulted to improved climate resilience investments at community level after promotion of 55 Climate smart technologies, funded 500 micro projects and 15 Producer organizations as well as implemented 5 sub-projects.
- Through the cooperatives sub-programme, 13 new cooperative societies were established, and audits done to 11 older cooperative societies across different value chains.

Livestock development and veterinary services

Livestock production

The key output for the livestock production sub sector was identified as increased output and productivity. To achieve this output, the sub programme was mainly involved in provision of extension services for improved dairy production reaching Over 62,000 farmers. Through the sub-programme we were able to support the development of dairy infrastructure for market development and supported the development of value addition for livestock products (milk). This

has seen farmers produce an average of 130,000 litres of milk per day. Indigenous chicken production has also greatly increased with support from the Kenya Climate Smart Agriculture Project (KCSAP) and Agriculture Sector Development Support Program (ASDSP II). Honey production is also a key economic activity in the County and its production has greatly improved.

Veterinary services

This sub-sector continued to deliver on its mandate of prevention and control of livestock diseases, prevent zoonosis; increase production and productivity, contribute to external and internal trade in livestock and livestock products in a sustainable environment and contribute to food security and wealth creation through various interventions and activities which include:

- ✓ Continuous pest and disease surveillance and control, and county wide animal vaccinations. As a result, the animal disease instances have reduced to 4.5% during the planning period.
- ✓ Upgrading of breeds where through the county Artificial Insemination programme we have been able to offer a total of 13,260 Artificial inseminations.
- ✓ Continued provision of extension services to livestock farmers where more than 14,000 farmers were reached.

Challenges

- a. Inadequate extension officers/services limiting service delivery.
- b. Low adoption of appropriate technologies
- c. Poor mechanization
- d. Slow adaption of value addition
- e. Low turnups than expected during vaccination periods.
- f. Inadequate budgetary allocation
- g. Delayed responses to issues due to poor communication network and limited transport means.

Going Forward

Going forward, achievement of the sector’s goals will highly depend on linkages and synergies with other priority sectors of the economy. Moreover, response to emerging issues such as vagaries of climate change, new legislations, legal gazette notices and executive orders and competing land use will also influence implementation of the proposed programmes and projects. With the widening gap between resource requirements and allocations, there is need to pursue innovative ways of financing programmes and projects including Public Private Partnerships and donor funding while embracing prudent use of the available resources.

SECTION 2: PROGRAMME DETAILS

Part D: Programme (S) Objectives

Programme	Sub-Programme	Objectives
Cooperatives development and management	Cooperatives Development	Vibrant cooperative movement
Crop Development and Management	Crops Development, Agri-business, and Market Development	Increased production, productivity, and household incomes

General administration, Planning and Support services	Administration, Policy Strategy and Management of Agriculture	Improved efficiency and effectiveness in service delivery
Livestock and Fisheries Resource Management and Development	Livestock Policy Development and Capacity Building	To support transformation of livestock production from subsistence into commercially oriented enterprise for sustainable food and nutrition security in the county.
Livestock and Fisheries Resource Management and Development	Veterinary services and Disease Prevention	To safeguard animal health and welfare, increase animal production and productivity and promote trade in animals and animal products for sustainable food security, food safety and economic prosperity.

FISHERIES AND ECOSYSTEM MANAGEMENT

SECTION 1: INTRODUCTION

PART A: VISION

To attain sustainable food security and incomes for the people of Tharaka Nithi County

PART B: MISSION

To improve livelihoods through provision of high quality, innovative, competitive, and sustainable agricultural services

Part C: Performance Overview and Background on the County Department

Fisheries Development Sub Sector Mandate

The mandate of the fisheries subsector entails exploration, exploitation, utilization, conservation, and management of fisheries resources while promoting aquaculture development and research in freshwater fisheries for sustainable development.

Sector report summary.

Key Achievements based on the planned outputs/services for the year 2022/23.

Fisheries Development

Due to increased extension services, an additional 1195 fish farmers were reached across the county and were given the necessary technical assistance, including pond liners, fingerlings, and construction of fishponds. 325 Farmers were supplied with fingerlings, 488 farmers supplied with fish feeds whereas 350 fish farmers benefited from pond liners in the plan period. The county collaboration with the International Fund for Agricultural Development (IFAD) through the Aquaculture Business Development Programme (ABDP) has seen the fish production and productivity increased tremendously over the years.

To increase on fish marketing and value addition, the county has constructed a fresh fish market facility at Chuka that is awaiting to be operationalised.

Challenges

The key challenges experienced includes High cost of aquaculture inputs (feeds, pond liners), quality fingerlings, structured market, climate change and low adoption to aquaculture technologies among others.

Going Forward

Going forward, achievement of the sector's goals will highly depend on linkages and synergies with other priority sectors of the economy. Moreover, response to emerging issues such as vagaries of

climate change, new legislations, legal gazette notices and executive orders and competing land use will also influence implementation of the proposed programmes and projects. With the widening gap between resource requirements and allocations, there is need to pursue innovative ways of financing programmes and projects including Public Private Partnerships and donor funding while embracing prudent use of the available resources.

Key Achievements based on the planned outputs/services for the year 2022/23.

The following were the achievements by the department for the FY 2022/23

- 9 ECDE classes were constructed to completion across the county.
- 1 dormitory constructed at Rubate Youth Polytechnic
- 1 workshop constructed at Kajuki Youth Polytechnic

Challenges

- Lack of adequate departmental staff for quality service delivery. The vocational training canters have few instructors leading to less manpower for quality service delivery.
- Currently, all ECDE centres have only PP1 teachers, PP2 teachers are yet to be employed.

Going Forward

- Increased funding to departments in the medium term to enable completion of budgeted programs.
- County Public Service Board to ensure more departmental staff are recruited for quality service delivery.

Key Achievements based on the planned outputs/services for the year 2022/23.

Three thousand school going, and vulnerable girls (both in primary and secondary schools) spread throughout the county have benefitted from dignity kits. Moreover, approximately one hundred people living with disabilities were issued with assorted assistive devices.

A total of forty (40) wheelchairs, thirty (30) clutches, sixteen (30) pieces of cranes and other assorted assistive devices have been issued to various deserving beneficiaries across the county.

Challenges

- Lack of adequate departmental staff for quality service delivery. We are unable to reach out adequately to all individuals in dire need of our attention.
- Inadequate resources that are needed to help vulnerable and needy cases.
- Poor police investigations and collaboration with family members especially in defilement cases.

Going Forward

- Increased funding to departments in the medium term to enable completion of budgeted programs.
- County Public Service Board to ensure more departmental staff are recruited for quality service delivery.

Key Achievements based on the planned outputs/services for the year 2022/23.

Tourism subsector has rolled out several projects to help create and boost the tourism industry in the County. Training of porters and guides in collaboration with KWS, completed 1st phase of Dodi programme in collaboration with National museums of Kenya (NPI), completion of hosting the 2023 Tharaka Nithi uragate cultural festivals that was held on 14th ,15th and 16th 2023 and presenting our cultural group and exhibitors to Bomas of Kenya for Utamaduni day celebrations on 10th October 2023

Challenges

- ◆ Inadequate skilled manpower and technical staff
- ◆ Inadequate mobility for technical staff
- ◆ Poor marketing linkages
- ◆ Inadequate field tools and equipment
- ◆ Inadequate office space and equipment
- ◆ Inadequate funds

Going Forward

There is need for the county to build technical and management capacity on the areas of governance, planning, public finance management, human resources, and technical abilities especially on service quality. This initiative should be coordinated with PSB's technical and management capacity development approaches to ensure **harmony**.

WATER AND IRRIGATION

SECTION 1: INTRODUCTION

PART A: VISION

Vision: Clean and secure Environment with sustainable use of water and other natural resources.

PART B: MISSION

To promote, conserve and protect the environment and other natural resources and increase water supply and forest cover for sustainable development.

Part C: Performance Overview and Background on the County Department

The Department achieved numerous milestones during the second and third quarter of the financial year, including forging strategic partnerships with development partners and increasing access to clean and safe water.

The Department secured commitment from the State Department of Water towards completion of the bulk water supplies in Chuka, which will increase household access to clean and safe water and drastically cut down non-revenue water in the County.

Key Achievements based on the planned outputs/services for the year 2022/23.

1. Successfully implemented the EWATER project, operational in 27 water access points in Nkondi Ward, targeting 1,500 households.
2. Tree planting program implementation in partnership with various collaborators, including Tana Water Development Works and the County Department of Environment and Natural Resources.
3. Protection of catchment areas.

Challenges

1. Inadequate financing for development water projects
2. Unforeseen delays in supply chain processes
3. High demand for skilled personnel during project implementation

Going Forward

The department requires additional funding in this and subsequent financial years to achieve all objectives.

HEALTH SERVICES

DEPARTMENT OF MEDICAL SERVICES, AND ICT, PUBLIC HEALTH AND SANITATION

SECTION 1 INTRODUCTION

PART A: VISION

A county free from preventable diseases and ill health

PART B: MISSION

To provide effective leadership and participate in provision of equitable responsive, accessible, and accountable high-quality health care services to Tharaka Nithi citizens.

Part C: Performance Overview and Background on the County Department

Sector report summary.

The sector comprises:

- Medical Services and ICT
- Public Health and Sanitation

The department has registered tremendous growth in all the building blocks of health leading to recognition and award as the county with the best managed health care in the 2023 Quality Healthcare Kenyan Awards. Robust expansion of health facility network was intentionally done to improve access to quality care. The County health facility density stands at 4.3 per 10,000 population surpassing the national target of 2.2 per 10,000 population. Access to health services has also improved remarkably through strengthening level one health services which has streamlined linkages and referral services.

The department is further focussing on equitably allocating the available resources for effective and efficient provision of health care services during the 2024/2025 budget to make Tharaka Nithi the hub of quality medical services, ICT, and public health.

Key Achievements based on the planned outputs/services for the year 2022/23.

During the 2022/23 budget implementation period the County realized improvement in the quality of health services. The total number of public health facilities increased from **86** to 114. In addition, the county upgraded Chuka County referral hospital to a fully-fledged level 5. Renovation and expansion works were undertaken in other health facilities including Magutuni level 4 hospital Outpatient block, Maternity ward and NBU. The operating theatre was equipped and a Modern incinerator installed.

In Marimanti Level 4 Hospital the following infrastructure projects were undertaken: Construction and equipping of a Modern mortuary, Construction of a new OPD block, a modern kitchen and Perimeter wall.

To improve medical oxygen supply within the county, two oxygen plants were installed in Chuka county referral hospital and Magutuni hospital. Additionally electrical power upgrade was done in three hospitals namely, Chuka, Marimanti and Magutuni

The county also invested in measures to strengthen supply of health products and technologies which ensured a steady supply of both pharmaceuticals and non-pharmaceuticals in the health facilities. To strengthen blood security in the county, a blood satellite was established in Chuka County Referral Hospital. Similarly, state-of-the art diagnostic equipment were procured and installed in selected health facilities across the county. Notably, the referral system was strengthened through procurement of modern ambulances and creation of a toll-free call centre.

Investment in level I health services as per the community health strategy saw 1265 Community Health promoters trained on basic modules and facilitated with CHP kits and smart phones to enhance real-time reporting.

There is need for concerted efforts to sustain the gains through prioritization and prudent utilization of the available resources.

Challenges

1. Delay in disbursement of funds.
2. Increasing burden of communicable and non-communicable diseases
3. Inadequate Human Resources for Health
4. Inadequate resources for waste management
5. An ever-increasing demand for health products and technologies
6. Inadequate integration of nutrition and dietetic interventions in disease management.
7. Diminishing partner support for Reproductive Maternal, Neonatal Child and Adolescent Health (RMNCAH) services
8. Emerging and re-emerging diseases like COVID-19 and Kala azar

Going Forward

1. Scale up intervention on communicable and non-communicable diseases.
2. Advocate for timely disbursement of funds.
3. Lobby for recruitment of more Human Resources for Health
4. Lobby for increased allocation of resources for waste management.
5. Mobilize resources for Reproductive Maternal, Neonatal Child and Adolescent Health plus Nutrition services (RMNCAH+N)
6. Advocate for increased allocation for Health Products and Technologies
7. Scale up public health advocacy activities in the community to address health challenges.
8. Strengthen and sustain emergency response and disaster preparedness mechanisms.
9. Enhance digitization of health facilities including installation of Electronic Health Information System

FINANCE AND ECONOMIC PLANING

SECTION 1: INTRODUCTION

PART A: VISION

A leading sector of excellence in public administration, financing, and planning in Kenya.

PART B: MISSION

To provide overall leadership and policy direction in resource mobilization, management, and accountability for efficient and quality public service delivery.

Part C: Performance Overview and Background on the County Department

Key Achievements

In the spirit of upholding Public Expenditure Principles (fiscal discipline, allocative efficiency, and operational efficiency), the department has prepared three public finance management documents: County Budget, CBROP and CFSP. The department pledges fiscal discipline as set out in PFM Act, 2012 as well as adoption of best practices.

In reiteration of commitments to prudent fiscal policy, the department ensured that there is equitable sharing of burdens and benefits of the use of resources and public borrowing between the present and future generation; ensured that development portfolio is not crowded out by increasing wage burden; ensured adherence to the ratio of development to recurrent of at least 30:70 on annual basis and over the medium term, as set out in the legal framework- Section 107(2) of the PFM Act 2012.

Challenges

The department gets its major funding for its activities from the Government. Due to delay in disbursements, the department has had challenges in implementing its activities hence affecting service delivery. The department therefore recommends increased funding from the government to improve service delivery.

Going Forward

The department will improve on resource mobilization strategies, and strengthen partnerships with development partners, and public and private enterprises to fully implement its mandate.

Part C: Performance Overview and Background on the County Department

Sector report summary.

Key Achievements

- Increased number of KM of roads opened and expanded to enhance transport and boost economy as it links the county.
- Continuous upgrading of roads with low volume seal roads in the county such as those tarmacked through low volume seal technology. The roads include Tunyai- Nthaara road, Mitheru - Kaanwa road, Kambandi-Chera-Ruguti and karandini – Kithioroni.
- Increased number of kilometers that were graded and gravelled.
- Purchase and maintenance of heavy and moving machines to lower cost of road opening and maintenance.
- Improving drainage
- Construction and improving of other major markets to modern markets.
- Construction of sanitation facilities
- Construction of modern markets e.g., Ndagani among others
- Installation of flood lights

- Garbage collection and management
- Development of the County spatial plans
- Development control in urban centres policy formulation and legislation especially the County climate change policy and Act.
- Public awareness and service delivery clinics

Challenges

- High cost of fuel led to increase in unforeseen expense of expanding the road network and classifying roads, limiting the number of gravelled roads.
- Delays in resolving disputes, property titles and political issues hindering long term investment in the county.
- Delayed disbursement of funds

Going Forward

To mitigate all the challenges, the department will ensure all prioritized projects are complete and work on counter funding /donor sourcing.

Total	99,002,200	96,471,630	82,567,128	107,611,500	99,338,118	88,479,814

Key Achievements based on the planned outputs/services for the year 2022/23.

- a) Supporting of MSMEs in the County
- b) Calibration of measuring tools
- c) Standardization of measurements
- d) Creation of Industrial parks
- e) Creation of awareness and distribution of alternative sources of energy such as solar

Challenges

- i) Delay in release of funds by National Treasury affecting implementation of planned activities.
- ii) Industry subsector has a need to support other agro-processing industries including banana, cassava, mangoes, and cereals. The county has not done much to support the sector hence there is a need to double efforts to tap the potential in the sector through increased funding.

Going Forward

The department needs increased funding in the coming financial year to enable it achieves its goals, objective, and mission.

In the previous financial years, the department faced many challenges in terms of funding and some of its major projects re-allocated in other departments.
